

Met-Ed is offering an Energy Conservation Kit to their customers. Here are the program details:

- The kit contains several energy saving LED light bulbs in various wattages, one specialty 3-way CFL, two LED nightlights, a furnace filter whistle, brochures with energy saving tips, and other valuable components.
- Installing the kit components can help residents save up to \$250 in energy costs.
- There's no fee to receive this kit.
- Met-Ed customers can enroll to receive an Energy Conservation Kit online at [www.PAenergykit.com](http://www.PAenergykit.com) or over the phone by calling (833) 344-6899.
- Only one kit is allowed per residential account, and accounts that have received a kit since June 2013 are not eligible for another kit at this time.
- More information about Met-Ed's energy efficiency programs can be found at [www.energysavepa.com](http://www.energysavepa.com).
